

Is this a costume party? What are you doing here?

I've taken a time machine because the future is in danger. I've looked at the slate of Democratic and Republican Presidential candidates and it is clear that, to have restore government by the people, America needs to elect you. Therefore, in honor of the upcoming Fourth of July, you have my full endorsement, Dennis.

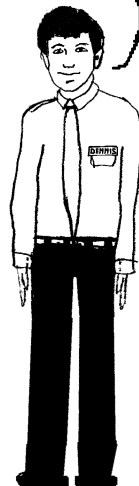

Thank you. Why did you bring your desk?

First, my desk contains my time machine. Second, I'm writing a letter of endorsement for you: "Dear Presidential candidates, other than Dennis, get some brains, resign and vote for Dennis. Sincerely, Thomas Jefferson."

That sounds a little insulting to the other candidates.

How many of the other candidates have co-sponsored or endorsed your impeachment legislation against Heartless Dick? I rest my case.
